The hail storm last week did not do  
much damage, though it came down in  
large chunks. The usual lie about  
stones as large as hen eggs is floating.

#### Circuit Court.

"Big" court begins next Monday.  
About the usual amount of business is  
to be transacted, with few cases of importance.

#### Saw Mill Moved.

O. G. Speake has moved his saw mill  
from Taylor's to Joel Walker's on  
old Danville pike. While at Taylor's  
he sawed 15,000 feet of lumber.

Important meeting of G. A. R., Saturday at 2 p. m. Be there, comrades.

The City Council met Monday evening  
and appointed Messrs Higginbotham  
and Stormes a committee to  
figure out the apportionment for the  
year's levy. They will report at next  
meeting.

#### Spring Suits.

Hold your orders for suits until you  
see Wanamaker & Brown's spring  
samples. They are beauties and more  
value is put in them, for the price,  
than ever before. It is the oldest and  
largest house in the nation, and defies  
competition in quality and prices. Mr.  
E. W. Harris will wait on you in my  
absence.  
M. D. HUGHES, Agent.

The Stanford Journal man is always  
smacking his lips over jowl and greens.  
Pshaw, man, we received a big waiter  
full of three different kinds of pie the  
other day which we wouldn't have  
traded for a barrel o' greens.

#### Exchange.

Potts Bro's have established an  
exchange at the residence of Mrs.  
Cunningham's on Depot street, and  
will keep on hand flour, meal, shipstuf,  
etc; to exchange for wheat. They will  
erect a large building within the next  
few weeks.

#### Slipped A Cog.

The "Back on the farm" company  
struck a snag of some kind at Somerset  
and did not get here Friday night,  
as announced in THE RECORD. It  
may be well for the show people, as  
the weather was too disagreeable to  
venture out.

#### Wait for Me.

I will be back in a day or so and show  
you the prettiest lines of merchant  
tailoring samples ever exhibited in  
Lancaster. It will be money in your  
pocket to examine these lines. Price,  
Fit and Quality guaranteed.  
M. D. Hughes Agt.

#### Scare About Over.

The Small-pox scare at Stanford is  
about over. The Journal says:  
"Dr. Bailey says that Sowder, the  
only patient here, after having a bad  
day or two, is getting along well now,  
and that his trip to the Walnut Flat  
section yesterday disclosed no new  
cases, the ones heretofore reported  
getting along finely.

#### To the Point.

A new reporter to the Chicago Post  
brought in this item: "A man killed a  
dog belonging to another man. The  
son of the man whose dog was killed  
proceeded to whip the man who killed  
the dog of the man he was the son of.  
The man who was the son of the man  
whose dog was killed was arrested on  
complaint of the man who was assaulted  
by the son of the man who was as-  
saulted and killed.

#### Help the Y. M. C. A.

The young men have made arrange-  
ments for the appearance of Frautz's  
Moving War Pictures in the Court  
House tomorrow night-Friday. Cor-  
rect representations of various battles  
are given and the ships and men move  
just as in the fight. This is the most  
wonderful entertainment on the road  
and you should see it. The Y. M. C. A.,  
get a per cent of the proceeds, which  
will help them greatly in their work.

#### Slightly Delayed.

The miserable weather has delayed  
work on the hotel and opera house,  
but when the sun does shine the men  
get a move on them and make up for  
lost time. The cellars are more than  
half done and the men are now dig-  
ging on the excavation to be used for  
dressing rooms under the stage. In  
the mean time work on the lumber is  
being pushed rapidly in the Lancaster  
Planing Mills and it will be ready in  
ample time.

#### Told the Truth.

A local paper published a long  
obituary of a man who had died in the  
community, closing with the state-  
ment that "a long procession of peo-  
ple followed the remains to their roas-  
ting place." The family read the no-  
tice and discovered the supposed  
error and asked the editor to make a  
correction in the word "roasting," but  
he said he could not do it until the  
seven years' back subscription de-  
creased owed had been paid.—Jes-  
samine Journal.

#### Patent Granted.

Mr. J. Raymond Haselden, one of  
our hardware merchants, has been  
granted a patent on a filter he recently  
invented. The filter is made so as to  
give perfect ventilation to the char-  
coal, which usually rots from remain-  
ing wet. The dirt is caught in the  
bottom and can be let out after each  
rain by removing a cap. Every cistern  
should be properly protected by a  
good filter, and by calling and exam-  
ining this one you will readily see he has  
what you need.

#### Thoroughly Equipped.

J. A. Beazley has purchased a beau-  
tiful pair of gray horses to work to his  
hearse, which makes his outfit one of  
the most complete in Central Kentuck-  
y. He is thoroughly versed in em-  
balming, having taken a complete  
course in that branch of his business.  
A handsome line of caskets and  
shrouds are kept constantly in stock,  
as is also everything necessary in an  
up-to-date undertaking establishment.  
His team and hearse have been pronoun-  
ced one of the handsomest ever seen in  
a country town.

#### Colored Recruits.

The War Department has wired Lt.  
W. T. Johnston, recruiting officer at  
Lexington, Ky., to enlist colored ap-  
plicants for Cavalry and Infantry ser-  
vice, sending the former to Fort Grant,  
Arizona, and the latter to Fort Doug-  
lass, Salt Lake City. This is an ex-  
cellent opportunity for young colored  
men to get into the regular Army.  
Recruit for white Infantry and Caval-  
ry regiments are also wanted. Apply to  
LIEUT. W. T. JOHNSTON,  
1-10-11 Main St. Lexington, Ky.

## NEW RAILROAD.

The Proposed New Line Seems to Be  
Within Reach of Garrard County.

As stated in our last issue, the pros-  
pects for Garrard county securing an-  
other line of rail road are very bright.  
Since last report, the Southern has  
purchased the Air Line which runs  
from Louisville to St. Louis and the  
West. This gives them several hun-  
dred miles of road on the other side of  
the Ohio river. Now, with their  
Southern lines running from Middles-  
boro on to the sea board, it is quite  
reasonable to infer that a connecting  
road between these two points is  
desirable. The Southern already owns  
the Louisville Southern, which runs  
from Louisville to Burgin. The dis-  
tance from Burgin to Middlesboro is  
ninety-seven miles and the route  
would take the road through counties  
offering the richest coal and timber  
lands in the state. Thousands of acres  
of the finest virgin forests would be  
opened up, in addition to the South-  
ern completing a trunk line from the  
south to St. Louis. The building of  
this road would be the best thing  
that could possibly be done for Gar-  
rard. This being the closest town to  
the coal and raw timber, we could,  
by putting in a system of water works,  
be prepared to offer the most flatter-  
ing inducements to manufactures.  
As to the advantage to be derived  
from having competing lines for  
freight, its no use to waste time speak-  
ing of.

If the line is built it will more than  
likely go by the survey made several  
years ago for the Louisville Southern,  
and pass through Bryansville, Camp  
Nelson, Lancaster and on out to the  
Rockcastle line. We do not see why  
there should be any trouble whatever  
in securing the right of way, as every  
man can readily see the ten-thousand  
ways in which the county and town  
will be benefitted. It seems to us  
that the thing to do is every fellow  
to put his shoulder to the wheel and  
give a united pull to get the road.  
If one will stop and think a moment he  
will come to the natural conclusion  
that unless we do take advantage of  
this golden opportunity we had as well  
fold our hands and become reconciled  
to be behind the times henceforth and  
forever. It will not increase taxation  
whatever; don't let anyone crowd that  
idea into your head. The law now  
prohibits the voting of a tax to help  
railroads. All we will have to do is to  
secure the right of way, and this, we  
firmly believe, can be done, as the road  
runs over the lands of men who are for  
progress, and besides, can see the great  
advantages to be derived from the road.  
No mans land can possibly be damaged  
as much as benefitted by the road pass-  
ing through it, and every land-owner  
can more than afford to donate the  
right of way. It should be remembered  
that under our new constitution not  
one dollar can be appropriated toward  
railroads, and no one need fear that  
there will ever be a vote to issue bonds  
for any such purpose. We are inform-  
ed that the road will be a CERTAINTY  
if owners of land through which it  
passes will give the right of way. But  
the railroad company cannot pay  
thousands of dollars for rights of way  
and then spend the estimated two  
million for construction of the road.

A later report says "Samuel Spencer  
has made a proposition to lease the  
Cincinnati Southern railroad from the  
city of Cincinnati, to be run in con-  
nection with the Southern railway.  
He offers to give \$1,000,000 a year rent  
and 4 per cent. on gross earnings above  
\$4,500,000," which goes to prove that  
the Southern is anxious for an outlet  
to the south. Now is the time to  
strike and go after the road to get it.

It is gratifying to see the interest  
people in other counties are taking in  
the matter. Mercer guarantees the  
right of way, as has also three other  
counties on the other side of us. The  
main thing to be done is getting the  
right of way here in Garrard, and  
while there is a possibility of some  
slight opposition yet we hardly think  
it probable. We cannot see how any  
man with a thimbleful of business  
sense can oppose granting a right of  
way to a road which will increase the  
value of his land three-fold. The Lan-  
caster Commercial Club is going at the  
matter in earnest and unless some un-  
foreseen obstacle is encountered the  
road will be secured.

## WELL PLEASED.

On the first of March we completed our  
first year's business. We have taken account of  
stock, figured up, and can truthfully say we are  
WELL PLEASED with the result.

The volume of our business was larger than  
we expected the first year. Now we want to thank  
the people of this and adjoining counties for their  
VERY KIND and LIBERAL patronage, and ex-  
tend to one and all an invitation to call and see  
us when in need of anything in our line. It is  
our purpose to keep a good, first class stock of  
Merchandise and sell for CASH at a very small  
profit. Most any one can sell cheap goods cheap,  
but it is not every one that can sell GOOD  
GOODS CHEAP. The volume of our business is  
such that enables us to buy in large quantities di-  
rect from manufactures and get the very  
LOWEST POSSIBLE PRICE. So this enables  
us to sell GOOD GOODS CHEAP.

We will continue our line of premiums this  
year and give to every purchaser a coupon ticket  
that will entitle them, (when they have secured  
the required amount) to one of our handsome  
premiums FREE.

#### Second Kentucky Boys.

Lt. W. T. Johnston, recruiting officer,  
in talking of the increase of the  
army, said "The War Department is  
already taking steps to increase the  
army to the new limit, and and I  
received a telegram Friday or Saturday  
asking what was the best plan to  
hurry recruits into the army to fill out  
the regiment, and I judge that every  
recruiting officer in the country received  
a similar telegram. All the recruiting  
officers are keeping their clerks  
busy enrolling recruits, and it seems to  
me that no difficulty will be experi-  
enced in filling out the army.

"And, by the way, Kentucky will be  
well represented, if there is any more  
fighting at Manila. I enlisted about  
200 men from the Second Kentucky for  
the Twenty-second infantry, and I see  
that regiment has reached the Phil-  
ippines."

#### Mr. Pilcher Here.

Mr. Thos. Pilcher, of Nicholasville,  
was in town Saturday, and being an  
old newspaper man, came up to watch  
the boys stick type and talk shop with  
us. He established the Nicholasville  
Democrat many years ago, and did  
faithful and effective work through its  
columns for the advancement of his  
party's interests. Having been in a  
newspaper office since early boyhood,  
he has naturally acquired much knowl-  
edge of men and matters. He is a  
candidate for Rail Road Commissioner  
for this district and while in our city  
met with much encouragement. Mr.  
Pilcher is the first candidate Jessa-  
mine has offered for a state office.  
That county, being a next door neigh-  
bor, has always stood up for anyone  
Garrard ever offered and in several  
conventions put in timely licks for  
Garrard entries. Mr. Pilcher is not  
tied to the apron string of any politi-  
cal faction, and told us he stood flat-  
footed upon the Chicago platform.  
While it is not the purpose of THE  
RECORD to dabble in politics yet we  
must say that a better man than Tom  
Pilcher can not be found for a public  
trust. If he is given the standard he  
will surely keep it aloft and free from  
stain.

#### To Build Opera House.

Our Danville friends are figuring on  
building a handsome opera house.  
This would benefit Lancaster also, as  
more and better troupes would come  
where a good route could be secured.  
The Advocate says: The promoters  
of the scheme are at present looking  
around for a suitable location, and if  
an option on a lot can be gotten at a  
reasonable price, the other details will  
be taken up. The idea is to erect a  
two or three story building, to contain  
a modern opera house, a lodge room,  
two store rooms, and a library room.  
The gentlemen back of the enterprise  
believe that a comfortable, well equip-  
ped opera house, with a stage suitable  
to the demands of the larger companies,  
would be well patronized. The build-  
ing, if it is erected, will be put up by  
a company organized upon the plan of  
the one which is building the hotel and  
opera house at Lancaster.

#### He Opposed Them.

At a great expense we secured this  
picture of one of the fellows who said  
Lancaster would not have telephones,  
electric lights, better train service,  
Sunday mails, new hotel, an opera  
house, etc., etc. He was in the act of  
talking against the proposed railroad,  
but the crowd didnt care to hear him,  
and this is what they did:

Have you a cough? A dose of Cous-  
sen's Honey of Tar will relieve it.  
Price, 25 cents and 50 cents.

THURSDAY, March 9 1899

The best-balanced and brainiest man connected with the war with Spain is Admiral George Dewey. Notwithstanding his many glorious achievements and the praise showered upon him by the people, his head is not swollen in the least and he is as modest in manner as the most insignificant officer under him. Some over-enthusiastic parties have been urging the Admiral to become a candidate for president, but he again shows his horse sense by declining. In a recent interview he said: "I would not accept a nomination for the Presidency of the United States. I have no desire for any political office. I am untrained for it, either in education or training. I am deeply grateful for many expressions of kindly sentiment from the American people, but I desire to retire in peace to the enjoyment of my old age. The navy is one profession, politics is another."

A certain millionaire has offered to give an educational institution \$500,000 if it "will perpetuate his name." It is astonishing how vain people are. This man might treble the amount of his donation, and have his name printed in box-car letters on the front of college, but ten years hence nobody would know or care whether such a man ever existed. Had he sold his goods and given to the poor probably he would have induced St. Peter to "perpetuate" his name, but the preachers tell us that good deeds proclaimed from house-tops don't cut much ice either on this greedy old sphere or in the world to come.

HON. WALTER EVANS has been appointed to fill the vacancy caused by resignation of U. S. Judge Barr. Mr. Evans is a capable man and, when the political creases are pressed out, will make a good judge. The office is for life, carries big pay with it, and, as the occupant will not have to grind axes, he will, of course, dish out justice regardless of dictation by political bosses.

THE administration, by promoting Schley over Sampson, has struck the key-note of public favor. By his modest, unpretentious manner, and strict discharge of duty, Schley has won the hearts of the American people, and all, irrespective of party lines, applaud this recognition of true merit.

THE MARION FALCON says: If there were no Stones lying around by which we might be smitten, we would venture the remark that the other candidates for the Democratic nomination will find they have a Hardun to Goe, bel up. That's Watt.

SPEAKER REED, by snubbing Gen. Wheeler, of Alabama, showed more of the seat of his trousers than the law allows exposed to view.

## THE SUNNY SOUTH.

KILLARNEY, FLA., 3-1-99.

Editor Central Record:

The delayed issue of 16th ult., arrived a few days late. I am satisfied that the only trouble was that some of Uncle Sam's boys in the mail service were upset and bewildered over Aguinaldo and the Philippines now that that matter is settled down to an open and sure-enough war, things will go better for awhile. Some trouble may be experienced as to just how we are to harmonize free Cuba and enslaved Filipinos, but that little matter will be easily settled. If it be true that we have outlived the constitution of the United States and the Declaration of Independence is to be regarded as mere trash—a myth—a web—its principles ignored and trampled under foot—if the stars and stripes are to be no longer regarded as the emblem of Liberty, but the insignia of tyranny and the badge of the despot,—there is no trouble to settle such small controversies.

But let us remember "The American people can't be enslaved," and they don't want to see any other people enslaved.

All this by the way. I am glad to say that some persons, who know more about orange trees than I do, think the trees are not seriously hurt and will come out all right—may be so. Since the freeze we have had severe frosts of rain, to such an extent that all vegetables planted were ruined, and much of the best hammock soil washed away, which has never happened in this country before. It is now too late to plant vegetables for market: corn, peas and sweet potatoes is all that is left to work on for subsistence with any degree of certainty. Our little Kentucky crew are all right, boating, fishing, hunting and buggy riding, are the employments.

Tom Adams, in company with two experienced hunters, left last Monday for a hunting ground, some twenty miles or more South of here, for a week's outing, with a full camping outfit, tent, cooking utensils, dogs, guns, &c., confident of finding deer, squirrels, quail, &c. Mrs. Adams and Miss Anderson have gone today for a general ride around over the country, to see the novelties and curiosities of the flat woods round about Ocoee, Bulah, Oakland and Winter Garden—they carried their lunch and a basket of water—great results are expected from their trip. Ike Dunn is here, out of the amusements, nursing a stubborn, though painless boil on his neck, with the assistance of Mrs. Burdett, flaxseed poultices and hot water. Mrs. Burdett and I are seriously studying the proposition as how to get out of Florida in the shortest time and most advantageous and economical manner, and leave as little behind as possible. This is the third big freeze and several small ones, besides many killing frosts and two floods, besides several small down-outs that I have seen in Florida—but this is the darkest day I have ever seen in the State. The oldest and most experienced are puzzled as to what to do or say. With all this it is a most charming winter climate—enjoyable and healthful.

Your Friend,  
B. M. BURDETT.

If your child is cross or peevish, it is no doubt troubled with worms. WHITE'S CREAM VERMIFUGE will remove the worms, and its tonic effect restore its natural cheerfulness. Price, 25 cents.

### No Right to Ugliness.

The woman who is lovely in face,  
form and temper will always have  
friends, but one who would be attrac-  
tive must keep her health. If she is  
weak, sickly and all run down, she  
will be nervous and irritable. If she  
has constipation or kidney trouble, her  
impure blood will cause pimples,  
blotches, skin eruptions and a wretched  
complexion. Electric Bitters is the  
best medicine in the world to regulate  
stomach, liver and kidneys and to pu-  
rify the blood. It gives strong nerves,  
bright eyes, smooth, velvety skin, rich  
complexion. It will make a good look-  
ing, charming woman of a run-down  
invalid. Only 50 cents at R. E. Mc-  
Roberts' Drug Store.

### Prize Essay on Newspapers.

Here is a "Prize Essay on News-  
papers," written by the "devil" of the  
Peacham Pulverizer: "Newspapers  
are called vehicles of information. Re-  
porters is what is called the staff—so  
many of them being ticks. They work  
hard at refreshment bars. Proofread-  
ers are men that spoils the punctuation  
of compositors. They spell a word one  
way to-day and another way to-mor-  
row. They think they are intelligent  
persons; compositors think different.  
Compositors are men as sets up the  
types—and sometimes the drinks.  
Compositors are very steady men when  
they are sober—which they seldom are  
when they can help it. Editors are men  
who know everything in the heavens  
above and the earth beneath. They are  
writers who don't write anything  
whatsoever. They are the biggest men  
you ever see. Managers are men as  
takes in the tin and gives patent med-  
icine 'ads.' top of reading matter 37  
columns out of 32. Proprietors ain't  
nobody. They ain't ever seen. Print-  
ers' devils is the most important per-  
sons in a printing office. They do the  
hardest work and gets the softest  
job. Pressmen is—well, there  
wouldn't be no newspapers, no circus  
bills, without pressmen to print 'em.  
Feeders is men that feeds on the fat  
of the land. If ever I starts a news-  
paper of my own I'll call it the "Um-  
brella," 'cos everybody will take it."—

### Chamberlain's Cough Remedy.

This remedy is intended especially  
for coughs, colds, croup, whooping  
coughs and influenza. It has become  
famous for its cures of these diseases,  
over a large part of the civilized world.  
The most flattering testimonials have  
been received, giving accounts of its  
good works; of the aggravating and  
persistent coughs it has cured; of severe  
colds that have yielded promptly to its  
smoothing effects, and of the danger-  
ous attacks of croup it has cured! The  
extensive use of it for whooping cough  
has shown that it robs that disease of all  
dangerous consequences. It is espe-  
cially prized by mothers for their chil-  
dren, as is never fails to effect a speedy  
cure, and because they have found that  
there is not too least danger in giving  
it, even to babies, as it contains noth-  
ing injurious. Sold by R. E. McRoberts  
Druggist.

### REMARKABLE OCCURRENCE

Witnessed by the Occupant of the  
County Attorney's Room.

A distinguished gentleman of our  
city, the only occupant of the County  
Attorney's office in the County Build-  
ing, has had rather an unusual experi-  
ence with a snake. On one beautiful  
day last summer he was out in his  
woodland pasture taking his usual  
stroll, meditating upon things that  
had been, were then, and were to be  
in the future. His attention was at-  
tracted to a struggle in the grass just  
37 feet 6 inches north-west from the  
north-west corner of his left eye. On  
hastily approaching the scene he saw  
two black snakes engaged in what  
seemed to be, and but for his inter-  
ference what would have been a deadly  
conflict, with the advantage to a slight  
extent in favor of what he called  
"snake number 1 over No. 2." His  
well known characteristics for fair  
play came immediately to the front.  
He did not know but what Snake No.  
1 which was the smallest snake, had  
in some way acquired a slight and un-  
fair advantage over Snake No. 2. With  
his walking cane he separated the  
combatants, intending that each one  
should get back to his best wind and  
form before renewing the battle, and  
then to call "time." The snakes were  
so thoroughly exhausted that for some  
minutes they lay watching each other  
seemingly unable to move. Suddenly  
snake No. 2 reared and threw himself  
back, and struck for the tall timber,  
with Snake No. 1 close after him.  
Snake No. 2 passed rapidly by a tree,  
thence curved gently to the left and  
struck a bee line for the woods. Snake  
No. 1 pressed on and imagining that  
his antagonist had gone around the  
tree himself passed around it until he  
came in sight of his own tail. Suppos-  
ing this to be the tail of his late antag-  
onist he kept up the pursuit round  
and round the tree, the tree being just  
large enough to prevent him from over-  
taking his tail, until the sun went  
down, rendering pursuit impracticable  
until the day dawned again. Next  
morning early the distinguished gentle-  
man found snake No. 1 in hot pursuit  
of his tail and still unable to overtake  
it. His snakeship would at times be  
compelled to rest, but during his rest-  
ing period he was glaring, hissing, and  
forking his tongue at his own caudal  
appendage. After a little rest he  
would again begin the hopeless chase.  
He would go off and feed and come  
back determined to win or die. This  
chase was kept up as long as the  
weather was suitable and the distin-  
guished gentleman had almost forgot-  
ten the matter, until one cold day  
when there was a little snow on the  
ground he, just as a matter of curios-  
ity, walked out to see what had be-  
come of snake No. 1 and there was his  
snakeship lying frozen stiff with his  
eyes glaring and his tongue poking out  
within three inches of the object of  
his chase. The distinguished gentle-  
man did not, as Esop's man, warm the  
snake in his bosom, but being a good  
democrat he put it in his boot. And the  
snake did not prove ungrateful,  
but as soon as it was warmed into life,  
it came out of the boot, thanked the  
distinguished gentleman and again be-  
gan the chase. Knowing that as soon  
as it stopped it would again freeze, the  
distinguished gentleman had built  
and has since constantly maintained a  
good comfortable fire, at which his  
snakeship spends all of his time while  
resting, and at last accounts the chase  
was going on, sometimes on the ground  
sometimes on the ice and sometimes  
skimming over "the beautiful snow." The  
distinguished gentleman says that in  
his bosom he may yet overtake the  
end in view. This is vouched for also  
by Perry Hatterson, Gole Culley, Par-  
ley Chindexter and Daw Shooes.

on March 15th to its Expectation  
Purse, fifth in its series of purses in-  
augurated in 1896. Successful from  
the start, its Purse for foals of 1895  
having over 500 nominations, notwith-  
standing the widespread depression in  
the interest of the that year, it has  
been patronized by the best class of  
horsemen in the United States and  
Canada. The subscribers to these  
Purses realize that on the opportunity  
offered their youngsters to win money  
depend to a large extent the future  
of the business, and so realizing have  
liberally patronized them in the past  
and will no doubt so continue to do in  
future. The increased interest shown  
in the business during the past year  
and much emphasized by the success-  
ful sales just closed, should induce  
owners to enter liberally. What the  
buyers most want are race horses, once  
that are well entered and have good  
prospects should they develop speed.  
Nothing distiguishes a horseman more than  
to find that he has purchased a colt  
that develops extreme speed but can  
not profit by it. Youngsters should  
be prepared for the market by being  
liberally entered in stakes as purses.  
The Stock Farm Publishing Company  
will be glad to send you an entry blank.  
Address them at Lexington, Ky. 2t.

Young fruit trees of most any kind  
should be well headed back. The  
trunks will then be more thicker  
shaded; later pruning can be done more  
easily and easily; it will be more con-  
venient to thin the fruit; spraying can  
be more effectively done; and with the  
nozzle close to the branches there will  
be less waste in the application; and  
during all the days to come the fruit  
can be more easily gathered from the  
low hanging branches. The manner of  
trimming out these formative branches  
will depend much, of course, upon the  
natural tendency of the particular  
variety of tree; some should be made  
to grow more upright, and some to  
spread their limbs.

Mr. David Arnold, of Nicholasville,  
who is a farmer of experience, says  
that cattle should never be salted in  
extreme cold weather. It gives them  
a thirst for water, which they often  
drink from a hole cut in the ice. The  
water being extremely cold, chills the  
stomach and very often results in death.  
Mr. Arnold believed this is why so  
many cattle have died in parts of the  
country the past winter.

March is upon us and so far as we know  
not a furrow has been turned. More  
corn was left ungathered this winter  
than ever before known and much of it  
is in bad condition. The weather has  
been unfit even for fencing and less farm  
work has been done than ever before  
known. When Spring does open up  
there will be work for all who wish it

William Lockart, one of our black-  
smiths, reports a singular case that  
came under his observation Saturday,  
says the Jackson Hustler. In shoeing  
a horse for one of his customers he no-  
ticed that the animal's hoofs were frozen.  
When he attempted to trim the  
hoofs particles of same broke off like ice.  
Mr. Lockart says that in twenty years  
experience in blacksmithing he has  
never seen a similar case.

H. F. Hillenmeyer, the noted horti-  
culturist, writes the Lexington Herald  
as follows concerning the fruit situa-  
tion: "The apples are not damaged;  
neither are the pears. Grapes have  
suffered severely, but will nevertheless  
yield a good crop. Cherries are proba-  
bly somewhat damaged, though it is  
hard to estimate to what extent. The  
raspberries are apparently safe. The  
strawberries are snug and the snow has  
really helped them very much. I am  
rather apprehensive of the damage to the  
blackberries that will result. An  
interesting fact is that there are more  
bushels of blackberries eaten in Ken-  
tucky each year than there are of ap-  
ples. Hence the loss of the crop would  
be a severe one. However, I do not  
apprehend so serious a result, although  
there is unquestionably some damage  
done to the bushes."

I have been afflicted with rheuma-  
tism for fourteen years and nothing  
seemed to give any relief. I was able  
to be around all the time, but con-  
stantly suffering. I had tried every-  
thing I could hear of and at last was  
told to try Chamberlain's Pain Balm,  
which I did and was immediately re-  
lieved and in a short time cured. I  
am happy to say that it has not since  
returned.—Josh Edgar, Germantown,

Colonel Charles E. Smith, the well-  
known real estate dealer of Richmond,  
closed a big deal by which 10,000 acres  
of land and about 40,000 white oak and  
poplar trees become the property of  
an English syndicate. The land is sit-  
uated in Knott and Breathitt Counties  
and is among the most heavily timbered  
along the Upper Kentucky River.  
The consideration was \$91,500 and it  
took \$61.50 worth of revenue stamps  
to have the deed recorded.

## Eczema!

## The Only Cure.

Eczema is more than a skin disease,  
and no skin remedies can cure it. The  
doctors are unable to effect a cure, and  
their mineral mixtures are damaging to  
the most powerful constitution. The  
whole trouble is in the blood, and  
Swift's Specific is the only remedy  
which can reach such deep-seated blood  
diseases.

Eczema broke out on my daughter, and con-  
tinued to spread until her head was entirely  
covered. She was treated  
by several good doctors,  
but grew worse, and the  
dreadful disease spread  
to her face. She was  
taken to two celebrated  
health springs, but re-  
ceived no benefit. Many  
valuable medicines were  
tried, but without re-  
sult, until we decided to try S. S. S., and by the  
time the first bottle was finished, her head be-  
gan to heal. A second bottle cured her com-  
pletely and left her skin perfectly smooth. She  
is now sixteen years old, and has a magnificent  
growth of hair. Not a sign of the dreadful  
disease has ever returned.

### Nothing But Trusts.

There's a steel trust, an iron trust  
And a trust in sugar, too.  
And there is many a trust  
To burden the glad New Year.  
There's a milk trust, a pie trust  
And a trust in sparkling wine.  
There's a pig trust, a sheep trust,  
And a trust in blinder twine.  
There's an ice cream trust, a cake  
trust,  
A trust in crackers and bread,  
And to scan the catalogue of trusts  
Is enough to turn one's head.  
There's a paper trust, a type trust  
And a trust on sewing thread.  
And they follow you to the grave-  
yard  
With a coffin trust when you're  
dead.

There's a nail trust and an oil trust  
And a trust in blainet, too.  
And the country is snip'y swarming  
with trusts.  
Till the air with trusts is blaine.  
There's a glass trust, tobacco trust,  
A trust on pottery as well.  
And if it isn't too hot for them  
They'll put up a trust in—well.  
There's a butter trust, a sugar trust  
And a trust in the power to skin.  
And nobody knows how many more  
Till the trusts have all come in.  
There's envelope trusts and other  
trusts.  
That will land us under the sod,  
And all that is left is for the man  
Is to work and trust in God.

### THEY MUST HANG.

Gov. Bradley Refuses to Commute the Death Sentences of Murderers Bob Brown and John Franklin.

FRANKFORT, Ky., March 4.—The clerk of the court of appeals has issued the mandate in the case of Murderer Bob Brown, of Barren county, and Thursday the governor declined to extend the day of execution beyond March 16, the day fixed by the lower court for Brown to hang.

The governor also refused to commute the death sentence of John Franklin, another Barren county murderer, and he will hang along with Brown.

### Tobacco Factory Burned.

OWENSBORO, Ky., March 5.—John D. Elliott's tobacco factory, on the river front, was destroyed by fire Friday afternoon. Loss \$25,000, with \$20,000 insurance. This is the second factory Elliott has had to burn here. A heavy north wind blew the dense tobacco smoke into the city and business was suspended, no one being able to withstand the suffocating fumes. On the streets it was impossible at a distance of several blocks to distinguish a man six feet away while the fire was raging on account of the volume of smoke.

### Attempted Assassination.

GREENUP, Ky., March 6.—James Brown, magistrate for the lower district of this county, was walking on the streets, when two men ran up behind him and one raked him with a knife, cutting ten inches through an overcoat, grazing the skin. It is supposed he was mistaken for some one else.

### Louisville Boy Promoted.

LOUISVILLE, Ky., March 8.—Information has been received here of the remarkable success of Leonard Cox, formerly an engineer of this city, in a naval competitive examination. His papers were such that he was advanced five years from his commencement of service, given a rank of lieutenant and a salary of \$3,500 per annum.

### Fatal Boiler Explosion.

OWENSBORO, Ky., March 7.—The boiler in Baxley's mill, in the suburbs, exploded Monday. Oliver Kelley was instantly killed, his body being badly mutilated. Thomas Wisdom was fatally injured, both legs broken and head crushed. Wilson Baxley was fatally scalded.

### Dempsey Gets Them.

RUSSELLVILLE, Ky., March 8.—Democrats of Logan county Monday instructed delegates to the Hopkinsville convention Friday to vote for Hon. J. F. Dempsey for commissioner. Bryan and the Chicago platform were endorsed.

### THE ROSTER FOUND.

All the "Unidentified" Confederate Soldiers Buried at Hopkinsville, Ky., Beneath the \$10,000 Monument.

HOPKINSVILLE, Ky., March 7.—Amid the dust and debris of an old desk that has stood neglected in the Bank of Hopkinsville for over 35 years there has just been discovered a little dingy memorandum book, in which are inscribed the names of the "101 unknown confederate dead," who lie buried in the cemetery of this city beneath the handsome \$10,000 monument, which John C. Latham, the New York banker, a native of Hopkinsville, caused to be erected over them in 1887. The memorandum book belonged to George K. Anderson, Cotton Gin Post-office, Tex. The only entries in it are relative to the dead soldiers.

Above the list of names is the following: "A list of confederate soldiers belonging to 1st and 3d Mississippi, 7th Texas, 8th Kentucky and Forest's cavalry, who died and were buried in the cemetery at Hopkinsville, Ky., in the fall and winter of 1861-62. The names and rank of the dead are taken from the penciled inscriptions at the head of the graves."

### BOTH INTOXICATED.

A Young Lawyer at Louisa, Ky., Who Shot His Own Captain Fatally Wounds a Steamboatman.

LOUISA, Ky., March 5.—Jerry Moningham was fatally shot here Friday morning by Harry Price, a young lawyer. The ball entered the head above the right temple and penetrated the brain. The men were on the steamer Argand when the shooting took place. Both are said to have been intoxicated. Price was a member of the 1st Kentucky volunteers. He shot his captain, R. S. Carr, at Ashland last week. Moningham is employed as tongsman on the Triple State Gas line. The injured man was brought here shortly after the shooting and given medical attention. He was sinking Friday afternoon, and his physician said there was no chance for his recovery.
